5 Bedrooms • 3 Bathrooms • 2 Car Garage • 3,015 Total Sq.Ft. • 2,795 Finished Sq.Ft

Open and dramatic perfectly describe this ranch style floor plan.

The main level is adorned by high vaulted ceilings that flow smoothly from the entryway, to the great room into the kitchen.

Hand-scraped hardwood floors throughout the living areas give the main level a rich, custom feel.

The spacious master bedroom is sophisticated with a coffered ceiling and offers an optional walk-out to the back patio. Relax in the luxurious 5-piece master bathroom featuring ceramic tile, soaking tub, granite countertops and an upscale standalone shower.

The dramatic feel of this floor plan extends into the fully finished basement (included in the base price) with 10 foot ceilings, built-in entertainment nook, 2 large bedrooms and a huge 220 square foot storage room.

All of our standard "upgrades" are included with this floor plan.
